FY 2018 Press Conference Hearing Fact Sheet Chlorpyrifos.docx

Thanks. The one pager prepped for the FY18 budget hearing notebook is also helpful.

Want me to put this all in to one overview document?

Also, I'm looping in Linda b/c it's coms stuff.

Definitely don't want to use that—way too much detail.

I thought I had a timeline somewhere—see attached. I think something closer to this level of detail would help.

Also, just saw this which is also the right level of detail:

Nancy, FYI- the existing one pager is specific to the use of EPI data in the risk assessment (and very long, 5 pages). I'm checking with OPP to see if there's a preexisting (generic) one-pager to use.

Thanks.

One thought – do you know if PRD has a generic (not EPI specific) preexisting one pager that can be used? If there's something that pre-exists, that would be helpful.

Thanks Avivah. The attachment really focuses more on the role that epi data played in our CPY and other OP assessments. I'm wondering if we should also provide a copy of the CPY website that we updated when we released the March 2017 decision.

Avivah,

Can you make sure our existing chlorpyrifos timeline/backgrounder has everything Liz is seeking.

I will suggest that Rick join for the interview.

Nancy (and Richard if applicable),

I would like to schedule an interview between you all and any relevant career staff with REUTERS or another wire service to talk through the chlorpyrifos issue – from the background/timeline, to the petition submittal, the decisions/actions the Obama Administration took and the actions that Pruitt took on this issue. Is this something that you can help us pull together (background research, timeline, etc.) and something you can help do an interview on? Jahan can help pull together the pitch and suggest the reporter that we will work with.

Please give me a call if you have questions – 202-564-3293. Thanks – Liz

All,

Five states and DC have filed a motion to intervene in the federal legal case before the 9th Circuit over the safety of chlorpyrifos, objecting to Administrator Pruitt's decision to keep the pesticide on the market. Motion is attached.

On the record response only, please.

AP's story will note that EPA has still not cited the scientific studies that the administrator says he reviewed in making his decision. If you have those now, please send them along.

Thanks,

Michael
